Allowable Subject Matter

1. Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance:

The allowability of the independent claims 1, 15, 17 and 23 resides, at least in part, in that closest prior art of record Trefethan et al. (U. S. Patent 5,960,405) does not disclose or suggest, alone or in combination, the control-data writing apparatus adapted to generate control data from the received order data for an oscillator which oscillated in accordance with the control data written into said oscillator, and wherein order data is sent to the control-data writing apparatus directly through the network from the business center server, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
